## EVOLUTION OF CURRENCY

Some of the major stages through which money has evolved are as follows: (i) Commodity Money (ii) Metallic Money (iii) Paper Money (iv) Credit Money (v) Plastic Money (vi) Cryptocurrency. Money has evolved through different stages according to the time, place and circumstances.

## FEATURE OF **TRX COIN**

Tron is an ambitious initiative that has lined up lots of potential milestones in the year to come. Its current offering is called Exodus, the free platform suitable for peer-to-peer distribution and storage of content. Exodus is not using blockchain technology at present but uses a special web-based file system protocol that supports a distributed file system. This phase is expected to stay through December 2018.
